The decision, however, is not yet definite, as members have six days in which to withdraw their votes.

Remedy Suggested. It is understood that the decision was reached after three hours and half discussion. The rubber expert, Mr. Burger, explained at length that co-operation with the Dutch East Indian Government was 4,000,000 in the interests of the whole Dutch East India, because the Budget depended considerably on the contribution of the rubber growing companies, while existing situation in the rubber industry unfavourably influenced the

alleviating unemployment. Mr. Brownlie referred to the trying period which the organisation, in common with other unions, had passed through during recent years owing to the severe industrial depression. He said that while the union had every reason to be satisfied with the manner in which it had met its obligations, inasmuch as it had paid over £8,000,000 in benefits since 1920, it was imneratively essential that their

funds should be rehabilitated. The meeting unanimously associated itself with the endeavour. Mr. Brownlie is retiring from the presidency of the union towards the end of June, and this was his last appearance before a general meeting. He has occupied the presidential chair for 17 years.

HOTEL PLANS OF THE

Site Being Considered in London.

In the course of an interview Bu granted by Mr. E. W. Beatty, President of the Canadian Pacific Railway, to a representative of the Journal of Commerce, Liverpool, prior to his departure for Canada in the new Canadian-Pacific liner Empress of Japan, reference was made to the many rumours circulated as to the Canadian Pacific purchasing the Hotel Cecil as great London centre for its passen-

ger traffic. Mr. Beatty said: "We are not going to buy the Hotel Cecil. We have a site under consideration in London for a hotel of between 700 and 1,000 rooms. We have two ideas in mind. The first is to have a hotel in London which will be a commercial success; the second is that the Canadian Pacific, with its tremendous Atlantic and tourist collecting possibilities, can make such a hotel a real Canadian centre, which will attract American tourists who are accustomed to the kind of hotel system we operate In Canada, very similar to their own. I hope we will reach a de- Si cision at the end of the year."

GERMAN DYE TRUST. S

CHAIRMAN EXPLAINS POSITION.

At the ordinary general meeting of I.G. Farbenindustrie (German Dye Trust) held at Frankfort-on-Main on June 4, Professor Bosch, C the chairman of the company, announced that 98 per cent. of the Ca German production of nitrogen was Co now included in the syndicate, and C that international agreements were | Co in the course of being made. Fifty Co per cent, of the European produc- D tion of nitrogen was already com- D

It was further emphasised that the importance of the Trust's rayon department must not be overestim-

Since the annual balance had been struck. Professor Bosch L stated, the Trust's balance at the bank had increased by over Rm. 100,000,000 (about £5,000,000), and its bank debts had considerably decreased, so that the whole concern was now practically free from bank obligations. This was an additional proof of the fact that the Trust's position was relatively satisfactory.

Extensions Completed. In order to remove any misunderstanding The chairman explained the reason for the fluctuations in the number of workpeople.

The many-sidedness of the Trust, in which its greatest strength lay, Re was bound to cause fluctuations in its trade, he said. Gains in one department often represented losses in another, and this tended to affect the number of workpeople St employed in the various departments. In addition, the extensions undertaken by the Trust since the Turbot 左口 War had created more work, but now that these extensions were complete, the extra staff taken on had become superfluous.

At the close of 1929 the Trust FAMILY. PRINCIPLE IN employed 75,000 workpeople and 23,000 others—that is, 98,000 in all-compared with 65,500 work people and 19,800 in allcompared with ... 65,500 ... workpeople and 19,800 others, or a total of 85,300, at the beginning of 1926 when the fusion of the Trust was taking place.

ESCAPE FROM JAIL IN LAGUNA.

Guards Prevent Big Jail Break.

GENERAL ALARM.

Manila, July 11. As reports of a sensational jailbreak in Santa Cruz, Laguna, in which two of several prisoners in the provincial jail were able to stage a get-away, were received last evening, constabulary headquarters issued alarms to provincial commanders throughout the Philippine for a nation-wide manhunt in an effort to capture six dangerous criminals who have escaped from various prisons during the past month.

The most sensational of these jailbreaks yet known was reported yesterday to headquarters by the provincial commander of Laguna, for the six months ending 30th Timely discovery by prison guards and constabulary soldiers of a plot FRIDAY, 8th August, on which for a general jailbreak prevented all the prisoners in the Santa Cruz be obtained on application at jail from escaping early last Wed-

However, in spite of prompt action by guards and soldiers, Alberto Ramirez and Bernabe Vidal, two notorious criminals, were able to escape. An exciting chase followed the discovery of the jailbreak, but the two prisoners got away. Both the escaped convicts were serving long terms and were being held in jail in Santa Cruz preparatory to their being sent to Bilibid.

The constabulary are still on the trail of Pedro Casapao, jailbreak artist, who staged his second escape from jail in Tarlac, Tarlac, early on the morning of June 11 by sawing off two iron bars in his cell, which was about 16 feet from the ground. This man staged his escape while his guard was sleeping about five metres away from his cell.

While it is generally believed that Palawano Majilon, alias Makilan, 50-year old baby-killer, met his death when he jumped over board while the s.s. Don Juan O and TEN Cents per Share on the was on her way to Manila on the night of June 18, nevertheless, pany, for the Six Months ended headquarters yesterday issued an alarm for his capture.

Another Palawan jailbreak artist being sought by the insular police is Santiago Rubi who, on the night of June 24, escaped from jail in Puerto Princesa. Rubi, according to a report sent by the provincial commander of Palawan, escaped through the washroom of the jail.

The aid of the Manila police has been sought in the hunt for Fulgencio Terro, notorious criminal of Rizal, who calmly walked away from his guard after sawing off a bar in his cell in the jail at Pasay on the morning of June 6. The first reports on the whereabouts of Terro after his escape said he was hiding in Antipolo. A constabulary pairol was immediately sent to that town, but the soldiers returned without the escaped convict. -Manila Bulletin.

HULUTAO HARBOUR WORKS.

Chinese Press Attack on Contractors.

ALLEGED "CROOKED LINE."

Tientsin, July 1. The following are translations from the Chinese of allegations made by the Mukden Min Pao and of the Netherlands Harbour works Company's reply thereto:-From the Min. Pao, Mukden,

June 26, 1930:-Hulutao Harbour Contractor's "Crocked Line of Actions" April and May Work Does not Fulfil the Terms of Contract.

(Hulutao Express News). We attach great enthusiasm and hope to the Hulutao Harbour Construction undertaken by the Netherlands Harbour Works Co. But the said Company still does not pay much attention to the actual work, while it has taken in the various works a crooked line of action. For instance, only 2 boats have arrived instead of 8; work has not been carried out in accordance with the programme in contract; the scarcity of drinking water for the future. For the present need, the said Company ought to first solve the problem of water supply, but after repeated urging, it only put 2 small contractors Teh Shun and Tung Hsln to the job of well drilling. Harbour Department has warned the said Company that if the problem of water 5, it will be refused to use any water. Again the said Company's treatment of the labourers is rather hard and cruel. They are paid only 50 cts. a day, but work 12 hours a day. On account of blasting labourers sometimes get hurt. The said Company has been urged to erect a hospital but has

supply is not solved before July not yet started the work. April and May work is said to have not met with the requirement of the Contract: Being not satisfied with the above points, the Harbour Department has refused to issue certificates. The said Company instead of seeking fundational solution, has only tried its best efforts to get paid. Recently the said Company has sent out different parties to secure advisers in Mukden in the hope to gain help; and facilities. The Harbour Department is very much grieved to see the Company act this way.

But anyway the Department will stand by its duty and responsibility to the last and will act upon fairness and equity. When the situation can be already such as the

resent after 3 or 4 months of work, what would be the future of the harbour, should the situation be let out of control now. Tientsin Yung Pao News,

To the Editors of the Min Pao, Mukden, and Yung Pao, Tientsin:—

Referring to the untrue and mis--leading statements which you published in your paper of June 26, we beg to request you to be good enough to publish the following corrections:-

1. You state that only 2 boats arrived instead of 8. In fact there arrived at Hulutao, so far 8 tows, altogether 12 steambonts, motorboats and barges. This craft brought all the plant necessary for carrying on the work as prescribed. That the contract was fully complied with in this respect is proven

when completed, will have the most up to date equipment. You state that the work of April and May has not compli-

ed with the contract. In fact, the Company is ahead of the Programme of Works agreed upon.

Lastly you refer to the engagement of so called Advisers. The Company can only point out that is a necessity resulting from the Company's recognition of the fact that the foreigners' understanding of Chinese ways in handling business is deficient and from the sincere desire to facilitate cooperation

In conclusion we may say that, if the statements made in your paper were correct, or, even not being correct, were considered to be correct by the Harbour Department, the latter would not have failed in their duty to inform the Company accordingly. The fact that this has not been done by the Harbour Department ought to convince any one that the statements published by you constitute an undeserved reflection not only on the efficiency of the Company but also of the Harbour Department.

FOUND IN LAKE NEMI NEAR CALIGULA'S BARGES.

A bronze Roman anchor, 11 ft. long, has been discovered during excavation work at the bottom of Lake Nemi, the famous crator lake 20 miles from Rome.

The anchor was found at a distance of 200 yards from one of the two State barges of Caligula, which were recently uncovered when the lake was drained. The shank is covered with wood.

Fragments of the hawser to which the anchor was attached were also found. .

HONG KONG TIDE

In fact, in heavy water the seas sweep into the old quay and the new dock, turning the waters into whirlpools, and on occasions snapping the stout hawsers of vessels moored there.

The Harbour Commissioners have produced a scheme for a sea wall or breakwater estimated to cost about £50,000, which it is considered will prevent Padstow passing out altogether as a port.

The tide-table given below has been obtained by aid of the Tide-predicting Machine, which includes 40 components for the better prediction of tides, from the result of the analysis of the tidal observations, taken at the Kowloon tidal ebservatory under the direction of Dr. Doberck during the years 1887, 1888 and 1889.

The times and heights are given for Kowloon; but they may be used for the Victoria Naval Yard and Aberdeen, the differences being very small.

SCENE AT THE DERBY.

Journalist-Knight Hits Major's Eye.

London, June 23.

Fashionable men and women case which was a sequel to a Derby Day incident, Major Victor Beaufort had summoned Sir Basil Clarke (the journalist) in the Epsom Police Court on June 4 for common assault.

The prosecution described the incident on top of a motor bus. Major Beaufort, when the Derby was being run, stood on the seat to identify the winner "for the general information of those on top of the bus." A certain Admiral complained previously of Major Beaufort blocking the view. Major Beaufort stumbled from At the time of writing rain is the seat. AN IMPRESSION AT SANDWICH.

New York, May 16. An intimate picture of the Prince enthusiastic golfer was given to the American people by O. B. Keeler, special staff writer of the Associated Press, who attended the Walker Cup matches at Sandwich. Mr. Keeler is known as "the Beswell of Robby Jones."

"After luncheon I saw a fine chance to make a snapshot of the Prince of Wales," cabled Mr. Keeler from England, "but some way I could not do it, surreptitlously, sitting there at a little table on the lawn by the old St. George's Club House. So I walked over and asked him, just as I would President Hoover or Calvin Coolidge, or anybody in our country.

"'Charmed,' said his Royal Highness, and squared himself off at the little table. And I got the picture, Sir Thomas 'Lipton's new yacht, and he seemed actually to recall my introduction to him at Sunningdale, and he gol up and talked golf to Pete Erwin and me for ten minutes.

"I presented Petc, and the Prince was, Pete, who is a member of the his handicap was twelve. T've been in Africa a lot these last two years,' he explained, 'and I haven't played as much golf as I should

"Were you really embarrassed playing golf with Bobby Jones and Jimmy Johnston?' I asked. "'Terribly, I was frozen,' he replied. 'I never got to hitting the ball until the last three holes."

"I was able to tell the Prince that his play on the last three holes accounted for his side getting a draw. He appeared distinctly pleased. "Your really think so?" he

inquired. "I told him I did not think anything about it-I know it."

"Well," he said, playing with American champions is quite an order. I tried to learn something, but some way I could not get my mind on anything but the match, which we were about losing. It was a sharp match. I was awfully pleased to have been with Bobby on a side that got a draw."

"The Prince had come over in a plane again, and flew back after the match. in the most casual sort of way. 'I love golf," he said, very simply, and I have never seen anything finer than this. Bobby is going to play with me again, I think; this week-end,

FOREIGNER JAILED IN BANGKOK.

of Local Police.

Bangkok, July 2.

How a foreign 'visitor in Siam may be precipitately thrown in jai on an unsubstantiated and possibly false and malicious accusation made by an individual in another country was revealed to-day when the details of the arrest and subsequent release of Maxwell Cornfield, an Australian consulting engineer, partner in a firm in Kuala Lipis, were ascertain-, ed by a Daily Mail reporter.

Mr. Cornfield was kept in the International Jail from June 8, the date of his arrest, until yesterday, when a communication, from the Resident of Kuala Lipis to the British Consulate-General here and to the local authorities showed that the charge made against him by the complainant in that town was not substantiated by evidence.

Besides the inconvenience caused by almost a month in jail, Cornfield feels that there is every reason to believe, in spite of the fact that he is a free man once more, that his chances for doing business in Bangkok as he had planned to do when he came are utterly ruined because of the public knowledge that he has been behind bars.

. Mr. Cornfield came to Bangkok m. early last month and established himself at the Trocadero Hotel. He intended to introduce an invention of his own, a machine for drying padi, on which he says he holds patents. He advertised in newspapers and was engaged in m. by three policemen and taken to jail. He learned that a warrant for his arrest on a charge of misapprobeen forwarded to the British Consulate-General and that the Consulate had passed it along to the police to do with as they thought best, which is the custom in countries where extraterritoriality has

been abolished or does not exist. Mr. Cornfield protested to his Consulate that he was innocent of the charge and that when the actual papers were seen here no one would doubt that he was innocent. The Consulate informed him that the question of his extradition was not a matter for the Consulate to decide but for the competent Siamese courts to decide. When the case came up in court it was postponed to allow time for the papers to reach Bangkok.

Regarding the charge itself, Mr. Cornfield said he could only surmise about its origin. He believes it arises from a sudden fear on the part of his partner that he had sold some electric contracts which they had closed in partnership and which he did have in his possession at the moment. Whatever it was, he says, the charge certainly was not just because of the action of Kuala Lipis authorities in finally deciding that they did not wish to prosecute it.

WEEK'S PAPERS IN ONE.

LOCAL NEWS, CHINESE NEWS. and all the NEWS.

The Weekly paper that saves you the trouble of writing Home.

A frank admission to a Senior Sanitary Inspector that certain Kowloon Tong residents had allowed mosquitoes to breed in flower pots, for the stated purpose "of feeding goldfish" was mentioned in a case before the Kowloon Magistrate. The OVERLAND CHINA MAIL carries a complete report of the case, which is of particular importance in view of the movement for all intensive anti-malarial campaign in the Colony

. There is an unhappy recrudescence of murderous attacks in the Colony. Last week, an amah returning from market in Wanchai made the terrible discovery that an old woman living in the same house had been brutally murdered in her absence. Another case which excited great interest, particularly amongst Chinese friends and residents in the neighbourhood, was the trial of a Chinese charged with the murder of five of his compatriots in a bank in the Western district in May. The OVERLAND CHINA MAIL reports both cases in full.

During the week, a young Chinese was found not guilty on two charges of uttering and obtaining money on a forged \$100 bill. The case, in which the evidence was very conflicting, occupied the attention of a jury for two days, and is comprehensively recorded in the OVERLAND CHINA MAIL.

The reception by the French Consul (M. M. G. Dufaure de la Prade) on the occasion of July 14, the French National holiday, is also the subject of appropriate notice in the OVERLAND CHINA MAIL.

Sport of all sorts, as usual, is ably dealt with by the OVERLAND CHINA MAIL staff, special accounts of and comments on lawn bowls games being a feature.

There is no phase of the life of the Colony or of China that does not receive attention in the OVERLAND CHINA MAIL - the weekly paper that YOU MUST ORDER NOW.

RACE FOR LOVE.

Hollywood's New Story.

New York, June 18. Gloria Swanson and Constance Bennett, two of the most famous luminaries of filmland, are speeding to New York from Hollywood in separate trains on a race of which the goal is love-or so the American newspapers say.

Gloria's husband, the Marquis De La Falaise, is on his way back to America in an Atlantic liner, and Gloria and Constance are said to be racing to New York to see who can greet the returning traveller first.

Constance is the divorced wife of the Broadway millionaire, Philip Plant, said to be the "business associate" of the Marquis, but Hollywood gossip insists that there is a romance between Constance and the Marquis.

Gloria, however, emphatically denies that there has been any breach between herself and her husband.—Reuter.

LONDON THEATRE.

TO HAVE CIRCULAR STAGE AND CYCLORAMA.

London's most modern theatre is to be built on the site of the old National Sporting Club, Covent Garden, by Mr. Terence Gray, managing director of the Festival Theatre, Cambridge, and of Mr. Fagan's Theatre, Oxord.

The theatre, which will be called the "Festival," has been designed by Mr. Felix Goldsmith, and will be the first in London, it is stated, to be equipped with a circular stage and a permanent cyclorama.

The settings, Mr. Grey sald in an interview, will be directed not at the few seats in the middle, but diagonally at the two wings of the auditorium. In this way the audience will be the third and fourth walls, rather than the fourth as in an ordinary theatre.

The stago itself will be circular, and constructed in 16 sections which can be raised independently by hydraulic machinery.

The Intention is to manage the discreet with the tongue, for new theatre in close co-operation what one tongue lets out, ten oxen with the Oxford and Cambridge cannot hold back."-Christian theatres.

Views On Fashions,

In comparing the dress fashions of China and the United States, Miss Young said, "I find the Chinese dress more beautiful, more comfortable, and certainly more practical: for our styles - do not change, or at least they change but slowly. I may wear this robe (she wore a lovely, beautifully embroidered turquoise silk), which I love very much, for at least five years, without fear of the mode's changing. I find it somewhat humorous that the American women, after their cry for freedom in dress, having achieved that freedom, are content again to imprison themselves in tight waists and long skirts. The American women adapt themselves too quickly to fashion, irregardless of the figure. More individuality should be their aim. I like, however, the athletic type of American girl best; she is free of movement, and unaffected." Although Miss Soo Yong admires the atheltic type, she's herself adopted such apparel only for. sports wear, feeling, that it does not suit her. She left the writer with gem of
